

MACHINE OIL-40

DESCRIPTION

MACHINE OIL-40 are blends of high quality mineral base oils and selective EP additive package to provide low frictional properties, excellent corrosion protection, tackiness characteristics. It is compatible to water mix cutting and grinding fluids which helps to prevent formation of solid blockages.

APPLICATIONS

MACHINE OIL-40 are recommended for

- Machine tool slideway surfaces, tables and feed mechanisms.
- Highly rated, medium speed, main propulsion & auxiliary trunk piston marine diesel engines.
- Turbochargers, oil filled stern tubes and variable pitch propellers.

BENEFITS

- Provide strong adhesion to slideway surfaces.
- Provide rust and corrosion protection.
- Minimize wear.
- Superior frictional properties.
- Outstanding load carrying and anti-wear performance.
- Good Demulsification.
- Prolongs way life.

PROPERTIES

ISO Grade	40
Specific Gravity	0.895
Viscosity @100 Cst	14.4
Viscosity @40 Cst	139
Viscosity Index	105
Flash Point	225
Pour Point	-12
